

On a low

Intro

You own my heart on a low
But I keep it bottled like water

Its not ok when you tell me you don't wanna play
Its emotional and then I go and act a fool
I make it hard for you I know I do
You know I done mean to no
Girl. It makes me so blue I dunno what to do
Why do I take it dark when I'm not with you ?
Been hiding this for so long its tearing me apart
I dont want us to part so you should know

Chorus

You own my heart on a low
But I keep it bottled like water
You play your part but I think we know
I didn't love you like I oughta - no

Verse 2

Its getting late and I've got bills to pay
But I've got something I wanna say before I go
Girl its hard to do just know the truth
That I do love you - yeah
Do you wanna stay do you wanna go ?
You wanna catch those feelings for me baby ?
Do you wanna stay do you wanna go
You wanna watch our garden grow ?
Girl we can reap what we've sewn

Chorus

You own my heart on a low
But I keep it bottled like water -oh
You play your part but I think we know
I didn't love you like I oughta - no

True loves a game best played with two
How bout I play. That game with you ?
Getting down and deep in our love
Girl don't it feel good to you ?

You own my heart on a low
But I keep it bottled like water
You own my heart on a low
You play your part but I think you know
You own my heart on a low
You play your part but I think you know
